Professional Summary

Marketing leader with 9 years of experience building narrative-driven brands and engaged communities from zero, at fast-moving startups. I've built and run marketing functions end-to-end across brand strategy, content systems, creative direction, and video-first marketing, at Gnosis, IDRIS, Shardeum, and WazirX. I write, shoot, and publish myself, using AI tools to speed up drafting and ideation. I've been the first marketing hire at multiple teams, and comfortable owning a brand's strategy solo without waiting on agencies.

Core Skills

Brand Strategy, Short-Form Video and Content Production, Copywriting and Creative Direction, Social Media, Influencer Partnerships, AI-Assisted Content Workflows, Event Production.
